XtraD Heavy Duty Gate Lock

Gate Solutions by Codelocks offers a comprehensive range of solutions for seamless gate and fence installation, delivering easy-to-use and effective access control for secured perimeters and outdoor areas. Available with compatible locks from the Codelocks Mechanical and Electronic Lock ranges.

Introducing the XtraD Heavy Duty Gate Lock
The XtraD Heavy Duty Gate Lock by Codelocks is a versatile and robust access control solution, ideal for a wide variety of applications. This innovative gate lock ensures security while providing authorized users with effortless access.

Key Features of the XtraD:
The XtraD Heavy Duty Gate Lock has an deadlocking plunger to prevent latch manipulation. Both the main latchbolt and deadlocking plunger are adjustable by up to 15mm (5/8"), allowing the installer to trim the latch to accommodate larger gaps between the gate and frame.

With stainless steel construction, the XtraD Heavy Duty Gate Lock is built to last. Tested to over a million cycles and boasts high corrosion resistance, making it perfect for high-traffic and harsh environments.

The XtraD Gate Lock is engineered to work seamlessly with heavy-duty Codelocks. Opt for the CL500 and CL600 mechanical locks for basic access control, or the electronic CL5000 Lock for enhanced flexibility with time-sensitive codes. For additional protection, consider adding a PinGuard™ by Codelocks to shield the keypad from weather conditions and maintain privacy. The XtraD Gate Lock from Codelocks is a heavy duty, durable gate solution designed to withstand the toughest conditions.

Key Features

- High-Security Single Point Latching System
- Compatible with a Broad Range of Codelocks
- Operable via Lever or Knob
- Complete Installation Kit with Fixing Bolts and Plates
- Heavy-Duty Codelock Options for High-Traffic Use
- Tested to Endure Over 1,000,000 Cycles
- Corrosion-Resistant Stainless Steel Construction
- Adjustable Heavy-Duty Latch Bolt and Deadlocking Plunger with 15mm ($^{5}/_{8}$") adjustment
- The XtraD Gate Lock by Codelocks is a heavy-duty, long-lasting gate solution designed to withstand the harshest conditions while providing secure and reliable access control
